Poles Being Erected For "White Way" to Union Station; New Lights.

In three weeks, San Francisco street, from El Paso atreet to the union staion, will be the best lighted thoroughtion, will be the best lighted thorough-fare in MI Paso. Employes of the Elec-tric Railway company began work Tuesday morning near the union sta-tion excavating holes in the curbing for the exection of are light poles. The poles will be placed at intervals of to feet along the curb, alternating so that the radiation of light will be more thorough.

that the radiation of light will be more thorough.

This work is the culmination of a chamber of commerce scheme to make San Francisco street a real "white way." The poles to be erected will be combination trolley and are light poles. Their erection will do away with about 50 wooden poles which now support the trolley wire.

A "sunlight" effect is given by the form of lamp to be used in the new scheme. Property owners along San Francisco street have signed a contract to keep the lights in operation for five years. Direct current will be used and will give the lamps a steady glow.

PROMIBITION AND DREGS.
Editor El Paco Herald:

It is frequently alleged that problibition of the liquor traffic causes use of drugs, the inference being that wet centers like New York are comparatively free of the drug habit. The Herald of April 21 prints a New York dispatch as follows:

The recent adoption of stringent regulations forbidding the sale of opiates and habit forming drugs in this city has revealed the appailing extent to which this evil has spread. It is estimated that there are between 109,000 and 180,000 drug users in the greater city. As a result of the activities of the police and federal agents in the enforcement of the new drug law which went into effect March 1, the hospitals and lalls are being over-crowded with victims of this habit. Many of the drug flends, crazed by their inability to obtain narcotics, are still wandering about the city by hundreds, in states ranging from semicollapse to hystoria. Every day numbers of them come to the police bearing that they be arrested. Pitiful scense are emacted in the police station where men deprived of their daily dope fail on the floor and lie writhing until they have been treated, all the time walling for drugs. During a single day 10 "flends" were admitted to the city bespital. The situation is becoming so desperate that city officials helleve that a special hestitution will have to be equipped to deal with these cases. It has been said by well known drug users who are now taking the cure at the city hospital that unless the rexitem are given medical treatment they will die by scores during the next few weeks."

Similar reports from Chicago and other wet centers where liquor is as accessible as water tell one story of large numbers and pitiable condition of drug victims.

Alcebed is inself a hight ferming drug and if its prohibition in New York about the use of drugs. Moreover, the drug objection to prohibition of hoverness containing the dr
